

BUILDING IT GREEN

Climate literacy training by tradespeople, for tradespeople

Funded in part by the Government of Canada's Union Training and Innovation Program

PROGRAM OBJECTIVES

Through education, Building It Green will promote a clear understanding of the critical role the construction industry has in helping Canada achieve its 2050 net-zero objectives.

Available in over **200** union training centres

FOUNDATION COURSE

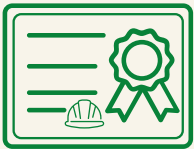

2.5 hrs, online, self-directed

Developed by training instructors and directors across trades from coast-to-coast, this course contains the foundations of what apprentices, journeypersons, and trainers need to know to deliver high-performance construction projects today and in the future

TRAIN-THE-TRAINER

Single day, in-person workshop

This workshop will empower trainers to integrate climate literacy into apprenticeship training for net-zero construction, increase green building awareness, and share effective teaching strategies.

Over **14** trade-specific curriculums available

TRAINERS' RESOURCE LIBRARY

Trainer's will gain access to a library of resources including: trade-specific learning modules to support their in-class delivery, presentation slides, trainer notes, and suggested in-class activities

ON-THE-JOB SUPPORT

Building It Green continues the learning journey by providing job site resources for workers, including toolbox talks and aids.

We will engage over **1,000** trade trainers and **30,000** apprentices and journeypersons
